## **2002 Idaho Legislative Budget Book For Fiscal Year 2003**

**T**his *Legislative Budget Book* is the primary reference document used by the Joint Senate Finance – House Appropriations Committee in setting the Idaho State Budget.

Section I of this document contains statewide summary reports, charts, graphs and historical tables. Section II provides a more detailed description of agency budget requests for over 80 divisions, which comprise over 250 programs. Also included is the Governor's recommendation for each division, which provides the Legislature with a side-by-side comparison of the agency budget request to the Governor's budget recommendation in a single, inclusive budget document.

Policy oversight is emphasized in this document by grouping and displaying minor programs at the agency or divisional level, and clearly displaying and comparing the key policy budget decisions that need to be made. Detail objects of expenditures (personnel costs, operating expenditures, capital outlay, and trustee & benefit payments) are de-emphasized to a certain extent, but in doing so allows the use of larger fonts with fewer pages. There is also a section for each state agency entitled *Issues & Information* that includes organizational charts, performance measures and other analysis that hopefully contributes context to the discussion of each agency's budget.

A comprehensive database and numerous working files also support the information contained in this document. This enables the Legislature's Budget and Policy Analysis staff to provide an extensive amount of fiscal information to Legislative leadership, members of JFAC, germane committees and the Legislature as a whole.
